

Y7 catch-up funding

Spending plan 19-20

The purpose of the funding

This is allocated for students achieving lower than 100 in their maths or English KS2 SATs, to enable them to catch up and keep up. The usual allocation is around £6000.

From 2020 the funding is allocated differently, as a premium, not a 'catch up' just for Y7.

English and Maths

1. Summer School programme for identified students	Key skills and confidence building	£3000 staffing and resources
2. Targeted tutoring and online programmes	Bedrock vocabulary Small group sessions after school for maths - staffing	£1200 £500
