1st December 2022

Dear Parent/Carer,

Flu Vaccination

We are writing to update you on the changes to the national flu vaccination programme. We have recently been informed that from January 2023 the flu programme will now include Years 7, 8 and 9. The programme may be extended to include Years 10 and 11 if there is enough vaccine stock.

The vaccine will be provided by a school vaccination team and is given as a nasal spray. This form of the vaccine is very easy to administer and is especially well suited to preventing onward spread of infection. The vaccine protects the child against the four main strains of influenza predicted to be in circulation this winter.

We will update you as soon as the dates have been confirmed.

Yours sincerely,

Mrs A James
